Download the Microsoft PowerPoint presentation template from the link below:

<u>Data Science Capstone PowerPoint template</u>

Note: If you do not have a desktop version then follow the instructions from the previous lab to get access to PowerPoint online.

- 1. Complete the slides with relevant details (You are free to add additional slides, charts, tables).
- 2. Add any additional unused charts or tables to the appendix that you think are relevant to your analysis.

Note: You can add a text box to the master slide and use it as a watermark on all slides to prevent your work from being plagiarized.

- 3. Convert your final presentation into .pdf format.
- 4. As part of your grade for the final assignment, you will be asked to upload your presentation for peer review.
- 5. You will also need to review the final presentation for at least one other peer and grade them before your final grade will be available.
